Converting units of measurement ks2 worksheets

Continue

In this lesson, we will learn how to convert between seconds, minutes and hours.In this lesson, we will investigate and model word problems about converting between seconds, minutes and hours.In this lesson, we will learn how to convert between hours, minutes and seconds.In this lesson, we will solve word problems which compare different units of time.In this lesson, we will learn how to convert between measures of distance such as mm, cm, m and km.In this lesson, we will explore the difference between metric measures of length and non-metric measures and then convert between metric measures.In this lesson, we will investigate and model problems and problem solving activities where we must convert between metric units.In this lesson, we will model problem solving activities where we must work out the perimeter of shapes with different units and then create designs involving constraints.In this lesson, we will introduce the distance measurements miles and kilometre and learn how to convert between them.In this lesson, we will investigate and model solutions to a variety of word problems involving conversions between miles and kilometres.In this lesson, we will introduce the concept of mass and investigate how to convert between grams and kilograms.In this lesson, we will investigate a variety of word problems and problem solving activities to complete involving metric mass.In this lesson, we will introduce the weight measurement, 'pound' or 'lb' and we will learn how to convert between kilograms and pounds.In this lesson, we will investigate and model problems involving conversion between kilograms and pounds.In this lesson, we will investigate word problems that challenge us to convert between various units of measures previously covered in the unit. Welcome to our Metric Conversion Worksheets page. Here you will find our range of sheets to support your child in learning to convert between metric units. On this webpage, you will find a range of measurement worksheets to help your child learn to convert between different metric units of measurement. As well as converting between different metric units, the sheets on this page will also help children to practice multiplying by 10, 100 or 1000 in meaningful context. The sheets have been carefully graded with the easiest sheets first. The sheets have been designed for children working from 3rd grade to 5th grade. Using these metric conversion worksheets will help your child to: convert between millimeters, centimeters, meters and kilometers; convert between grams and kilograms; convert between milliliters and liters. convert a range of whole numbers and decimals Want to test yourself to see how well you have understood this skill?. Try our NEW Length quiz (cm, m and km) or All Metric units quiz. 1 cm = 10 mm 1 centimeter = 10 millimeters 1 m = 100 cm 1 meter = 100 centimeters 1 km = 1000 m 1 kilometer = 1000 meters KEY FACTS - WEIGHT 1 kg = 1000 g 1 kilogram = 1000 grams KEY FACTS - VOLUME 1 L = 1000 mL 1 liter = 1000 milliliters Sheets 1 to 3 are aimed at a 3rd to 4th Grade level and use whole numbers only. Sheets 4 and 5 are aimed at a 5th grade level and involve converting metric units to and from decimals. Our quizzes have been created using Google Forms. At the end of the quiz, you will get the chance to see your results by clicking 'See Score'. This will take you to a new webpage where your results will be shown. You can print a copy of your results from this page, either as a pdf or as a paper copy. For incorrect responses, we have added some helpful learning points to explain which answer was correct and why. We do not collect any personal data from our quizzes, except in the 'First Name' and 'Group/Class' fields which are both optional and only used for teachers to identify students within their educational setting. We also collect the results from the quizzes which we use to help us to develop our resources and give us insight into future resources to create. For more information on the information we collect, please take a look at our Privacy Policy We would be grateful for any feedback on our quizzes, please let us know using our Contact Us link, or use the Facebook Comments form at the bottom of the page. Sheets 1 to 3 are aimed at a 3rd to 4th Grade level and use whole numbers only. Sheets 4 and 5 are aimed at a 5th grade level and involve converting metric units to and from decimals. Sheets 1 and 2 are aimed at a 3rd to 4th Grade level and use whole numbers only. Sheets 3 and 4 are aimed at a 5th grade level and involve converting metric units to and from decimals. We also have a selection of converting worksheets for customary units. On this page we have a selection of worksheets for converting between yards, feet and inches. There are also sheets for converting betweeen gallons, quarts, pints and cups. Converting Customary Units Worksheets Temperature Conversion Worksheets Take a look at some more of our worksheets similar to these. Here is our selection of measurement worksheets for 3rd graders. These printable math sheets involve reading scales going up in halves, ones, fives, tens, fifties and hundreds to find the length, weight or liquid capacity. Using these sheets will help children to consolidate their counting and place value as well as learning to read and estimate using a simple scale. 3rd Grade Measurement Worksheets Here is our selection of measurement worksheets for 4th graders. These printable math sheets involve reading scales in both the standard and metric systems. The scales include finding the length, weight or liquid capacity. Using these sheets will help your child understand how to: read scales in both the standard and metric systems; read a scale going up in a range of fractions: halves, quarters and eighths; read a scale going up in tenths, fives, tens, fifties, and hundreds. Using these sheets will help children to consolidate their fractions and place value learning. 4th Grade Measurement Worksheets This section contains our 3rd grade time worksheets to help children tell the time in multiples of 5 minutes. Using the sheets in this section will help your child to: tell the time to the nearest 5 minutes; become familiar with both digital and analogue times; add and subtract time intervals; use the words 'past' and 'to' to describe the time correctly. Telling Time to 5 Minutes Worksheets Our quizzes have been created using Google Forms. At the end of the quiz, you will get the chance to see your results by clicking 'See Score'. This will take you to a new webpage where your results will be shown. You can print a copy of your results from this page, either as a pdf or as a paper copy. For incorrect responses, we have added some helpful learning points to explain which answer was correct and why. We welcome any comments about our site or worksheets on the Facebook comments box at the bottom of every page. Page 2 Welcome to our 2 Digit Multiplication Worksheets page. We have plenty of worksheets on this page to help you practice the skills of multiplying 2-digit numbers by 1 or 2 digits. We have split the worksheets on this page into two sections: 2-digit x 1-digit multiplication (3rd grade) 2-digit x 2-digit multiplication (4th grade) Each section ends with some trickier challenge sheets for more able students. Within each section, the sheets are carefully graded with the easiest sheets first. These sheets are aimed at 3rd graders. Sheets 1 to 4 consists of 15 problems; sheets 5 and 6 consist of 20 problems. Sheets 1 and 2 involve multiplying 2-digit numbers by 2, 3, 4 or 5. Sheets 3 to 6 involve multiplying a 2-digit number by single digit numbers and finding increasing trickier products. These 2-digit multiplication worksheets have been designed for more able students who need that extra challenge! These sheets are aimed at 4th graders. Sheet 1 involves 2-digit by 2-digit multiplication with smaller numbers and answers up to 1000. Sheets 2 to 4 have harder 2-digit numbers to multiply and answers that are generally larger than 1000. These 2-digit multiplication worksheets have been designed for more able students who need that extra challenge! We have more 2-digit multiplication worksheets, including 2-digit x 3-digit multiplication problems on this page. More Double digit Multiplication Worksheets (harder) Take a look at some more of our worksheets similar to these. Need to create your own long or short multiplication worksheets quickly and easily? Our Multiplication worksheet generator will allow you to create your own custom worksheets to print out, complete with answers. Here you will find a range of Multiplication Worksheets to help you become more fluent and accurate with your tables. Using these sheets will help your child to: learn their multiplication tables up to 10 x 10; understand and use different models of multiplication; solve a range of Multiplication problems. All the free 3rd Grade Math Worksheets in this section are informed by the Elementary Math Benchmarks for 3rd Grade. Here you will find a range of Free Printable Multiplication Games to help kids learn their multiplication facts. Using these games will help your child to learn their multiplication facts to 5x5 or 10x10, and also to develop their memory and strategic thinking skills.
